

Guru veera prasath M

Full Stack Developer

Phone: +91 97916 64128 Email: guruveeraprasath322@gmail.com Location: Tamil Nadu, India

EDUCATION

Master of Computer Applications (MCA)

Nehru Institute of Information Technology and Management
2023 – 2025

Bachelor of Computer Applications (BCA)

TKS College of Arts and Science
2020 – 2023

HSC

NS Boys Higher Secondary School
2019 – 2020

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- React
- Tailwind CSS
- Node.js
- Express.js
- Rest API
- MongoDB
- Python

TOOLS&PLATFORMS

- GitHub
- Figma
- Firebase

CORE CONCEPTS

- Data Structure
- OOPS

LANGUAGES

- English
- Tamil

SUMMARY

MCA graduate and Full Stack Developer with strong front-end expertise and solid back-end fundamentals, including APIs and databases. Passionate about building responsive web applications and eager to learn, grow, and contribute to development teams.

EXPERIENCE / PROJECTS

1. Full Stack Development (Training), IBM

February 2024 - May 2024

- Developed responsive and user-friendly interfaces utilizing front-end technologies, enhancing user experience.
- Gained practical experience in back-end development principles, including API integration and database management.
- Applied version control and debugging practices to ensure code quality and project stability.

2. AI-Based Employee Productivity Tracker

Developed a web application to track employee productivity in real-time using face detection, recognition, and activity monitoring. Implemented using React.js, TensorFlow.js, MediaPipe, and Python for Excel-based reporting. Automatically identifies breaks and logs productive working hours.

3. E-Commerce Website

Built a responsive shopping platform that allows users to browse products, add to cart, make purchases, and track orders. Implemented product listing, cart management, and user-friendly navigation using HTML, CSS, JavaScript, and MySQL.

HIGHLIGHTS

- Solid understanding of front-end and back-end integration.
- Familiar with REST APIs and database concepts.
- Experience with version control tools (Git/GitHub).
- Good problem-solving and debugging.
- Comfortable using AI tools to accelerate coding and development workflows.
